

To The Editor:

I write in support of Commissioner Steve Hambley for re-election to continue his leadership in Medina County.

I cannot imagine anyone with the experience and preparedness to lead our County more than Steve Hambley.

He has devoted his entire life to community service. Steve has the educational experiences that can only be attained by one who has completed degree work required of a doctoral candidate. His education qualifies him to lead collegiate students in their quest for quality education. We also benefit from that knowledge and leadership in the continued development of Medina County.

I served on the Board of United Way when Steve Hambley provided the leadership for instituting the 2-1-1 First Call for Help Medina County now enjoys. He has also had a key role in the continued success of Leadership Medina County, as well as many other community services.

The former City Manager of Brunswick once told me that Steve Hambley was the hardest working, most informed councilman he had ever worked with. Steve continues that work ethic as he serves us as Medina County Commissioner.

Steve Hambley is a very compassionate individual. Anyone who knows him personally will attest to that, as they witnessed the manner in which he lives his personal life, dedication to his family and service to the community.

Please join my wife and me in voting for Steve Hambley to continue his work as our Medina County Commissioner.

Sincerely,

Charles E. Hawley, Retired Medina County Commissioner
