

*I have served on my township's zoning board for several years and in that time, I have had occasion to witness the skills that Commissioner Steve Hambley brings to the table. When the technology park in our township was in its infancy, it was Steve Hambley's ability to work effectively across a wide variety of political subdivisions and agencies that was instrumental in pulling it together so it became a reality. In his involvement in NOACA (Northeast Ohio Area Coordinating Agency), Mr. Hambley has proven that he is a diplomatic but effective leader who gets things done for Medina County, even when facing formidable opposition from larger and more powerful entities. For example, when the third lanes on Interstate 71 that have so benefited our county were so vehemently opposed by Cuyahoga County, it was Steve's ability to build consensus and work through obstacles that got this done.*

*Steve Hambley has a keen understanding of economic development, critical to a community anytime, but especially in the current economy. He knows economic development tools and has been instrumental in their use in our communities throughout the county. Economic development leads to a more robust local economy, and that in turn leads to jobs – something we need in our country now more than ever.*

*Steve Hambley proves himself a leader worthy of our support every day that he is on the job. Please join me in voting for Steve Hambley so that he may continue his good work for all of us in Medina County.*
