

Letters of Endorsement

Re-elect Hambley for County Commissioner

It is of no surprise to those even vaguely familiar with governmental affairs that the provision of public services faces serious challenges in the future. While this fact may appear as an abstract in one's personal life, these challenges directly affect the well-being of the residents of Medina County, as well as their communities, many who rely daily on these essential services. Locally, the Medina County Commissioners are tasked with identifying, strategizing and implementing policies that address these challenges. Clearly, the role of Medina County Commissioner is one which requires an experienced individual of the highest quality.

As a trustee in Hinckley Township I have served with Medina County Commissioner Steve Hambley on the Medina County Emergency Management Executive Board, the Medina County Planning Commission and the Medina County Electrical Aggregation Committee. In these capacities Commissioner Hambley has consistently exhibited clear, concise leadership skills, while providing insight into processes and solutions. Commissioner Hambley is approachable, engaging, hard-working and knowledgeable of valuable assets in our current fiscal environment where all entities must be open to ideas that promote the sharing of services and resources absent the confines of former barriers.

It is a fair assessment that Commissioner Steve Hambley has devoted his career to serving the public in a manner which reflects Medina County in a positive light; regardless of one's political ideology this is an accomplishment that deserves our ongoing support. I urge voters to support Medina County Commissioner Steve Hambley in his re-election bid.

Trustee Martha Catherwood

Hinckley Township
